WASHINGTON, March 5 .- President Wilson personally appealed to Congress assembled in inint occiotoday, to sustain the national honor of the United States in upholding treaty obligations by repealing the Panama tolls exemption against which Great Britain protests He asked the Congress to do that "in spite of the foreign policy of the United States," and added that an exemption for American ships not only was a "mistaken economic policy," but was in contravention of the Hay-Pauncefote

SHORTEST MESSAGE.

President Wilson's address, the shortest he has jet delivered to Congress-exactly 420 words-was as follows. "Gentlemen of the Congress"

"I have come to you on an errand which can be very briefly performed, but I beg that you will not measure its importance by the number of sentences in which I state it. DRIVEN FROM CAMP ON PETERSEN'S ORDER

After Leaving Oakland Members of "Army" Attempt to Tear Down House in Neighbor City

ICHMOND, March 5.-A division of the Kelly army of the unemployed started a riot at 12:30 o'clock, when they attempted to tear down a large house owned by D. W. McLaughlin, at Macdonald and San Pablo avenues.

About 300 of the army smashed windows and using axes and other weapons, half demolished the house before Police Sergeant Ruiz and six policemen charged on the crowd with drawn revolvers and threatened death, and finally drove the men from the building, after they had done about \$2000 worth of damage. Five ringleaders were arrested and taken to the police station.

A reporter and a photographer for a San Francisco newspaper were arrested with the ringleaders on charges of inciting a riot and interfering with an officer.

The newspaper men claim that they simply rushed into the rowd and attempted to get the wreckers out of the way so that hey could take a photograph.

The I. W. W. section is encamped on the tract owned by the Bouquet-Moran Company of Oakland. They have torn up all the subdivision stakes set for the purpose of marking 900 blocks in the tract, and used the stakes for firewood.

The city council and a committee from the unemployed are now holding a conference relative to furnishing the two armies with transportation to Benicia. Sheriff R. R. Veale, by telephone, has summoned 124 constables and deputy sheriffs to meet at Port Costa at 6 o'clock tonight to meet the army there. There are two divisions of the unemployed camped here, their headquarters being about half a mile apart.

While "General" Charles T. Kelly vainly importuned his men to stay on the lot at Forty-sixth and Linden streets, as they had pledged themselves to do, the "Unemployed Army" this morning stampeded before the massed police forces of Oakland, Berkeley and Emeryville, and were, within 30 minutes after the main body of police arrived, loaded on San Pablo-avenue cars and rolled toward Richmond. Not a blow was struck. The only resistance was in the shape of hot words and threats by Kelly, which were not even listened to by his own followers.

BRITISH ASK MUCH.

'It should be borne in mind that Great Britain is asking more than the repeal of the coastwise provision. Sir Edward Grey questions our right to pass American battleships or other government craft through the canal without the payment of a toll. The discovery has also been made by Great Britain that we have violated the treaty when we entered into a convention with the republic of Panama 10

"I have always believed that when there was a dispute concerning the language of a treaty with a foreign nation that it was the duty of the United States Government, speaking through the administration in power. to strenuously uphold the American mide of the controversy, instead immediately resolving every doubt in

EXCUSE IS THIN.

"The only excuse for surrendering is the plea that the Government is in difficulties and to secure the backing of foreign nations a sacrifice must be offered up. The Panama Canal is too great a sacrifice to offer

What change has taken place since Governor Woodrow Wilson, candidate for President of the United States. delivered his speech at Washington Park, N. J., to 2500 farmers whose votes he was seeking?

"In this now famous address he asked the farmers: 'What interest have you in opening the canal to the Commission Orders New Scale Censorship is imposed on All ships of the world? We do not own the ships of the world. One of the great objects in cutting that great ditch across the isthmus of Panama is to allow farmers who are near the Atlantic to ship to the Pacific by way of Atlantic ports, to find an outlet at ports of the Gulf or ports of the Atlantic seaboard and then have coastwise steamers carry their products down around through the canal and up the Pacific Coast.

OBJECT IS PLAIN.

"One of the bills pending-passed by the Senate as it had passed the House, provides for free toll for American ships through that canal and prohibits any ship from passing through which is owned by American railroad company. You see the object of that, don't you? We don't want the railroads to compete with themselves because we understand that kind of competition. We want water carries to compete with land carriage, so as to be perfectly sure that you are going to get better rates around the canal than you would across the continent.

SPEECH IS PROPHETIC. "It seems most prophetic that in the same speech the presiden-tial candidate should have stated: 'Our platform is not molasses to catch flies. It means business. It means what it says. Gentlemen who talk one way and vote anothgoing to be retired to very quiet private retreat.'

"This concession is being made Great Britain for what reason? She is giving nothing in return. Senator Lodge, who was present when the treaty was considered, declared on the floor of the Senate, July 17, 1912; When I reported that treaty my own impression was that it left the United States in complete control of the tolls upon its own vessels. I did not suppose then that there was any limitation put upon our right to charge such tolls as we pleased upon our own vessels or that we were included in the phrase, "all nations"

"Again on July 29, 1912, he said. 'I be lieve that the right to fix tolls if we built the canal or if it was built under our auspices, was undoubted. I know that view taken by the then senator from Minnesita, Mr. Davis, who was at

certainly so stated on the floor.'
"Senator Clapp, Senator Flood and Senator Perkins, who were present, coincided in this view.

"Former Senator J. B. Foraker in a recent speech stated: 'According to my recollections this very question (of right to discriminate in favor of our own ships) was raised by an amendment to the treaty, which amendment was voted down overwhelmingly because it was thought unnecessary to specify that a provision of such a character did not apply to us who were building the canal and were to left office. Except for an assurance to have, with respect to it, the usual rights for the further reason that to exempt one ago, that the question would be taken class of ships would imply that other lasses were not exempt.

"The action we take at this time will be final. It means the surrendering of the canal for generations. That will mean new mands on the part of Great Bri-tain and other nations. Instead of helping us with foreign countries, they will lose their respect for a government that only having taken a position reverses itself and surrenders its right to regulate domestic commerce.

KNIGHT OF AIR' FLIES HIGH CORNERSTONE DAMEREL ON THE GROUND

Macdonough Offers a Splendid Bill of Stage Fare

Music, feminine pulchritude and a snappy story have won for "The Knight of the Air" another Orpheum success The Viennese operatta has proved a drawing card that has captured crowds for the popular Twelfth street vaudeville house. "A glittering mass of color" is the way in which the operetta has been described.

George Damerel, billed as "star," alone hampers the speed of the thing. Over-indulgence in musical comedy popularity has done its worst to Damdry and minus the requirements of thespic skill. Once possessed of a voice that did more or less justice to "Merry Widow" melodies, his present efforts to touch the high places of melody arouse melting pity in the hearts of his hearers.

Compared to the grace and beauty of their efforts his dancing arouses not an iota of jealousy in the cows that amble through the buttercups and daisies of Hayward's meadows. Dam-erel's shortcomings sound his farewell to the stage His high-note screech is a laugh This is likely to be his last round

WEBB IN FAVOR OF . SALARY INCREASES

Fish and Game Deputies Cases Reviewed by Attorney-General.

Sacramento, March 5.-The State Fish and Game Commission received an opin-ion yesterday from Attorney-General Webb under which it proposes to put into Wetb under which it proposes to put into effect increases in the salaries of thirty-four subordinates, which were turned down by the State Board of Control last Sentember

September.
That the State Board of Control does not intend to recede from the original position was made clear tonight by Clyde . Seavey, who declares the opinion does not clearly establish the fact that the salaries of the subordinates of the Fish and Game Commission are official sal-aries, in the sense that they are statucorv. and therefore excluded from the auditing power of the Board of Control The same view will probably be taken by the state controller, so that the increase in salaries is not yet assured. IT WILL BE A GLORIOUS YEAR .

We think that if every man in Oakland were to write down today his estimate of this city's growth in population, trade and commerce during the remaining months of this year, not a single man would find his estimate up to the real mark on next New Year's day. There is one un-Known factor which not even optimism is apt to reckon fairly. That is the tremendous factor of the commerce of the coasts of the United States and a vast bulk of European and Asiatic commerce finally diverted to the new route through the Panama canal.

Authentic information is at hand which tells of over a quarter of a million of one-way tickets to California already sold upon the installment plan in Europe. Nor are the buyers all of the wage-earning and job-seeking class-not by any means. The general manager of the largest steamship concerns engaged in selling these tickets to California says that a very large proportion of these new immigrants will come seeking land and provided with the funds to pay for it.

The examples set by thousands of small farmers here in Alameda county will powerfully attract the new settlers to make their homes upon the acres tributary to Oakland. Now it is a fact established by indisputable statistics that each family located upon a farm sustains another family in a city. So we must revise all estimates of growth in population based upon normal increases in years past and add the swelling figures of the probable influx through the canal.

Then, too, there is a world-wide recovery of business optimism. Capital, hidden for many dull months, is coming out in the open, looking for employment. The bourses of Paris and Berlin and the stock exchanges of London and New York and Boston and Chicago ring with hopeful activity. This cheerfulness, this activity, this confidence has its echo here already. We are not only in the Spring of the calendar year. We are also in the Spring of a happy and truttul business year. Nothing - not even war - can turn this business sunshine into business gloom. For the whole world is bright with it.

Our own city—this Oakland of ours—thrills, in answer to the pulsing conditions of the world's life, through every nerve and fiber of its commercial being. Just see how cheerful is everybody, how confident, how proud of their city, how sure of its future, how active in helping to push every good thing along. There is not a city on the long Pacific Coast which has more activity, more confidence, more steadfast hope, more rock-ribbed trust in itself and in its destiny.

We shall see, this year, a great increase in manufactures, a great increase in transportation facilities, a great increase in wholesale and retail merchandising, a great increase in building, a great increase in population, in property values and in accumulated capital for the future.

We shall see all our sister cities—Richmond, Vallejo, Berkeley, Alameda—and the suburban towns increasing as Oakland increases, growing with her growth, prospering side by side with her prosperity. Nothing can be more certain.

It is a wondeful prospect which the mirror of the near future holds up to our eyes. And not the least pleasing reflection is the thought that all this growth and prosperity around us, and all that is to come, the citizens of this good town owe to their own courage, their own activity, their own splendid civic pride. That is the plain truth and the proud truth.

In no die nare ine men of hasiness and the men of money ever more liberally contributed to the common good. Look at the beautiful storesthose palaces of trade - with which great merchants have provided the city. Look at the noble buildings with which courageous capitalists have adorned the business thoroughfares, at the huge hotels, at the towering office structures. And try to think when our bankers or merchants or professional men ever withheld money or time when a public enterprise called for both.

It is this public spirit, this civic pride, this willingness to lend a helping hand, this neighborly good feeling which is making Oakland so great and so prosperous. It is these things which will make 1914 still more prosperous.

We are glad to live in such a city, glad that the TRIBUNE is the voice of such a people, glad that all around it are such signs of present happiness and such beckoning beacons of hope for the future.

Yes, this is going to be a great year. Isn't it just good to be alive in such a city and in such

Speaking of the Auditorium.

Talking about this auditorium affair, now—we are in a fix. Somebody made a bad guess, and here is the building not finished and not enough money available to finish it. Not enough by half a million. That is a considerable sum of money, even for a rich city like Oakland, and it is perfectly natural that there should be some opposition to raising it by a bond issue. And yet, when you come to think it over, what else is to be done? We really wish somebody could show us a way out of the jam, without borrowing the money on the city's promissory note-which is all that bonds are.

Of course, the city can raise the money by direct taxation, but that is hardly a fair proposal. Because the Auditorium will be used and enjoyed in years to come by grown-up people who are Uniy children non, and it is headly sight that the growing generation should not pay anything for what they will use.

In the long run, all direct taxes are paid by the producing classes. The property owner adds the tax to the rent, the merchant adds the rent to what he sells; and the buying masses—the largest number of whom are workmen—finally pay the bill. This being the case, it is hardly fair to tack the whole half-million dollars upon the workers, right off the reel.

But if the direct tax is too severe upon the producing masses, the only other thing to do is to spread the payment out over 20 or 30 years and let the increasing values of property bear their share of the load as the values increase. And that means, of course, a bond issue.

We suppose very few citizens will deny that we must go ahead and finish the Auditorium, whether the job is pleasing or not. The world is coming this way next year and Oakland cannot afford to have a steel skeleton proclaiming that the city is too poor to put a cover on its ribs. That would be a fatal advertisement.

There is one comfort about borrowing the money on bonds. It will be spent in Oakland for Oakland material and for wages to Oakland workmen. That must be insisted upon. No outside contractors, no outside workingmen, but every dollar spent in making jobs for Oakland labor. In that way, the money borrowed from abroad on the bonds will be kept in circulation here and make more work and more wages and better business. No doubt, before the bonds are due, say 20 years from now, the money circulating backward and forward, from the hands of workmen to the hands of merchants and back again in wages, and so on in a continuous circle, will have earned the city more than the loan several times over. That is the way big corporations grow so rich. They borrow and borrow on long-time bonds and make the money earn itself and a lot besides before the bonds are due. And what is good policy for railroad and street car companies and water and call it "Peggy drop." and Miss Wilson. gas corporations is probably good policy for a city. For when you who dances the modern dances with come to think about it, a city is only a corporation, in which all graceful abandon, adds the finishing the citizens are stockholders.

Maybe, the Auditorium ought not to have cost so much. There's and slower than the ordinary dip. It replenty of room for argument on that head. But the hard fact we sembles Fre up against is that we must either raise the money or let San | curtsy in the minuel. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beauti-fully and removes dandruff, stops scalp itching and falling hair; besides no one can possibly tell, as it darkens so naturally and evenly. You

drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears: after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

BULLETIN.

EL PASO, Texas, March 5.-Luis Terrazas Jr., who has been held for many months a prisoner by the rebels at Chihuahua pending negotiations for ransom, has until tomorrow to pay \$500,000 to General Francisco Villa under pain of death.

EL PASO, Texas, March 5,-Examnation into the execution by General Villa of William S. Benton, the British subject, and into the disappearance of Gustav Bauch, an American was begun at Juarez today by the Mexican commission appointed by General Carranza, chief of the constitutionalists. The commission will endeavor to ascertain whether the arrest and convic-tion of Benton was made according to due form of law and justice. It is not expected that an examination will be made of Benton's body.

An attempt will be made by the Mexican commissioners to learn whether Bauch was executed or

whether he still is alive.

Headquarters of the constitutionalist government was established across the river at Juarez. General Carranza and the members of his cabinet were expected to leave Nogales for Juarez some time today.

CAPITAL TRANSFERRED. EL PASO, Texas, March 5.-Seventy men, heads of departments and clerks and secretaries employed in the civil branch of Carranza's government, arrived in El Paso late last night from Nogales, Sonora, and will cross to arez, where they will establ offices of the constitutionalist government. is due to ring sharply at 3 o'clock. Whatever the result, Oakland fans may rest assured of one thing, the Oaks will try to win. Devlin wasn't eight years a Heutenant for Muggsy McGraw with-

and McGraw would just as soon use a city series as to be boaten in an exhibition game. For several of the Oaks, today's geme and the Sunday morning contest, with the games that are due to come within the next week or so, represent the scales in which they will be weighed by Manager Devilin. If found wanting, they will have to step down and out to make room for better men. If they measure up to the needs of the Oaks then their place on the team is assured. It is significant that Devilin has left at Pleasanton such men as Rube Gardner, Pitcher Jake Geyer, Gus Hetling left at Pleasanton such men as Rube Gardner, Pitcher Jake Geyer, Gus Hetling and Bert Coy, players concerning whose value he seems to have made up his mind. The men who are fighting to prove their right to places on the team are those who have been brought to Oakland for this afternoon's opening clash against the clash of Calibban.

TAKING TEST HIMSELF. Devlin is giving himself the acid test and at the same time braving the critical and at the same time braving the chicks judgment of the fans who will pass upon his work at the corner which he guarded so valiantly for the New York Glants in two world's pennant fights. Not unless he is thoroughly satisfied with his own condition and work in the White Sox acries will the hig boss order Grs. Heiling own condition and work in the White Sox series will the big boss order Gus Heiling to the bench. Meanwhile last year's field captain and the batting hero of 1912 is gritting his teefin and bending every nerve and muscle to the task of making Devlin extend himself to the utmost if he hopes to beat Heiling out for that corporate last year.

The winter in California has apparently heiped Rube Gardner quite a bit. He is more spry than ever, and is banging the ball with all his accustomed vigor. Looks as though Devlin will surely carry the Rube." If for nothing else than the role he occupied last year.

hopes to beat Heining out to the Cakland hinder is but one post on the Cakland infield which seems quite settled, and that is the short field berth where "Doc" Cook has no competition. Cook has been running wild in the training camp games, and has shown improved form both at the hat and in the field. This will be his second year at batting left handed, and he figures to boost his average over the notch of 258, which he negotiated last year.

With every out, this fellow Booby Murphy looks better. He is speeding up how in his work around the keystone and meeting the ban victorial. We'll soon be reading the line: "Hit into a double play, Cook to Murphy to Ness."

DISCIPLINE FOR KAYLOR. Ted Kaylor, the Danville gardener, is being disciplined by Devlin and will have to eat humble pie for awhile before he gets a chance to distinguish himself in action. Raylor is a sweet little ball player, but the expoerance of youth and the lect that he was a zero in the Three I league are things which he will have to recover from in order to succeed out here. Opening Encouraging and the Reading R. R. Reports Only Have Temporary Power.

NEW YORK. March 5.—Fortified by large speculative orders for the principal stocks and signs of a better demand for a wide assortment of minor specialties, the market displayed general strength for a time today. Appearance of railroad statements, including Reading's showing, further decreases in earnings, had only a temporary influence, and it was not attached the most of this simple or overators made the most of this simple and sold stocks all through the list, depressing prices under resterdar's close.

Resetionary tendencies were in the main checked at midday, but the list continued to present features of weakness. Beet Sugar dropped 2½; General Motors advanced 4 points.

Eastern railroad stocks showed general weak-

way two points and Reading & Lehigh Valley one point.

The market closed steady. Completion of forced Heuldation in various spots removed a load from the market and prices mended somewhat in the final hour. New Haven jumped points, 12 points, 12 points, 13 points, 14 load from the market and prices mended somewhat in the final hour. The Pianola

Is the Piano and the Art to Play It Combined

I Sit at the PIANOLA, Play! Softly the first plaintive minor chords fall. You trace the red Metrostyle line-The guiding record of Paderewski, of Grieg, of some master musician, leads you as an infinitely patient, painstaking teacher. The music quickens. The melody rises clear above the accompaniment, swinging more rapidly. You are all attention now. Every nerve is alert. Don't miss that crashing chord. Such wonder-, ful work this-it is real musicians, music which you and the PIANOLA are capable of, and in producing it there is all the joy of making music with your own hands and brains. Truly the PIANOLA is the Piano and the art to play it combined.

¶ No player piano can approach PIANOLA music. Unfortunately the general public and many music houses refer to all player pianos as "PIANOLAS"—they are not PIANOLAS—there is only one PIÁNOLA, made exclusively by the Aeolian Company and obtainable only in these six pianos-Steinway, Weber, Steck, Wheelock, Stuyvesant and Stroud.

MARE ISLAND NOTES

MARE ISLAND, March 5.-Mare Island is to have a chance to show the east coast that it can build ships and incidentally boost the campaign to get a dreadnaught for 1915 as the yard-built collier Jupiter has been ordered to proceed from this coast to Norfolk, Va., via the Straits of Magellan. Orders to that effect were received at the local naval station this morning from Secretary of the Navy Daniels and caused cuite a bit of surprise, as it was believed that the big fuel carrier would be allowed to remain on this coast. The pard officers are of the opinion that the main reason for the order is owing to the fact that the crowns in 1912 to 3,883,619,000 in C., are determined to give the electric 250,000,000. test and no harder trip could be imagined for the vessel than the voyage from Mare Island to Norfolk.

In going over the list of vessels assigned to the various navy yards it is found that fifty vessels and trgs make Mare Island their home yard while Bremerton has but twenty-eight craft to repair. Mare Island loses the monitor Cheyenno as well as the collier Jupiter. The Jupiter goes to Norfolk and the Cheyenne has been assigned to Bremerton. The yard, however, received Bushnell, the new submarine tender now bushnell Construction Company, and which vessel will be delivered before the year is over. Good Used Player Pianos and Pianos

The large volume of our player and grand piano business necessitates taking many medium and high-grade upright pianos in exchange. Some of these come from Oakland's finest homes. We have not sufficient floor space to allow these used pianos to accumulate. In order to sell them quickly, we have priced them far below their real value and offer herewith a partial list. These instruments are in tip-top condition and must be seen to be appreciated.
